 obetscollins@gmail.com  (+234)8034582884

 github.com/CollinDex  linkedin.com/in/coeedex/

Skills

Languages: JavaScript, Typescript, Python, SQL

Technologies & Tools: ReactJS, AngularJS, NodeJS, ExpressJS, NextJS, MongoDB, PostgreSQL, Google Firebase, Redux, TailwindCSS, Styled-Components, GitHub

Work Experience

JoinMomentum, UK (Remote)

May 2024 - Present

Full Stack Developer

- Collaborated with 6 other team members in the development of a SaaS product which serves as a market place for buying and selling services and products.
- Implemented code optimization and bug fixes, resulting in a reduction in page load times and significantly improving application responsiveness.
- Successfully integrated third-party APIs (Stripe Api, Cloudinary Api, AuthO) into the application thereby expanding its functionality.
- Ensured cross-browser compatibility by implementing responsive design principles and conducting thorough testing across various browsers and devices, resulting in a consistent user experience across platforms.
- Implemented accessibility features (ARIA attributes, keyboard navigation) to ensure compliance with WCAG standards, making the application accessible to users with disabilities and making code more precisely testable.
- ReactJS, NextJS, Redux, Typescript, ExpressJS, GitHub, PostgreSQL, Tailwind CSS

JoinMomentum, UK (Remote)

Jan 2024 – May 2024

Full Stack Developer Intern

- Collaborated with team members and designers to redesign the user interface of a product and received positive feedback from users and stakeholders.
- Implemented an Image Cropper functionality as part of a feature in a product.
- Developed Reusable Components used in the development of a product.
- Developed an entire product feature on my own which reduced production time.
- Made unresponsive pages responsive and user friendly.
- ReactJS, NextJS, JavaScript, ExpressJS, Tailwind CSS

Education

University of Nigeria Nsukka

Oct 2018 - Present

Medicine and Surgery (MB, BS)

Zero To Mastery Academy

Complete Web Developer

Jan – Aug 2023

Complete React Developer

Jan – May 2024

Relevant Coursework: Object Oriented Programming, Database Management, Data Structures and Algorithms, Computer Networks, ReactJS, Redux, NodeJS, ExpressJS

Free Code Camp

Responsive Web Design

Jun – Aug 2022

JavaScript Algorithms and Data Structures

Aug – Oct 2023

Relevant Coursework: Responsive Web Design, Algorithm Analysis, Advanced Algorithms and Data Structures, JavaScript

Project Work

MedData Api (2024) | *JavaScript, NodeJS, ExpressJS, MongoDB*

- Developed an Api for management of medical records in a health facility
- Created models for different patient data to be stored
- Implemented a search by ID functionality using query parameters.
- Api allows the user to create, update, read and delete patient data from the database.

Colci-Clothing (2024) | *JavaScript, ReactJS, Redux, NodeJS, ExpressJS, Google Firebase*

- Developed an e-commerce platform called Colchi Clothing using React and Firebase.
- Implemented secure sign In and authentication methods using Firebase.
- Built an Api and Integrated it with third-party services (Stripe Api) for payment processing and secure checkout.

Smart Face Detect (2023): | *JavaScript, ReactJS, NodeJS, ExpressJS, PostgreSQL*

- Developed an application that runs a facial recognition scan on an Image, detects a human face on an image using ClarifaiAI Api and draws a face detection box around the face it detects.
- Implemented a Responsive Design that allows the application to be used on various devices with the same user experience.
- Developed a secure authentication system that ensured user privacy and data security.
- Developed an Api to handle requests from the frontend to pull user data from the database and log them into the app. Developed a database to securely store data of registered users.
